Teaching Kids the Dental *Flossophy*

The Massachusetts Dental Society's "Just for Kids" Web site has a new addition! Dental *Flossophy* educates children on the importance of flossing every day, as well as discusses what age to begin flossing, how to floss, and the types of different floss available. The new Web page can be accessed by logging on to the Public Section at www.massdental.org/kids/.

In addition, a Dental *Flossophy* brochure is available to schools and outside organizations. For more information, contact Michelle Sanford, manager, media and community relations, at (800) 342-8747, extension 253, or msanford@massdental.org.
