

Protex™ N95 Particulate Respirator Model SR9520

NIOSH Approved | TC-84A-9295

Featuring the Protex™ All-Day-Comfort™ System

Shawmut – a world leader in advanced materials – has put everything we know into our Protex™ N95 molded-cup-style respirator, including our patent-pending Protex ADC™ All-Day-Comfort System.

Designed, engineered and manufactured in the USA, Shawmut's new Protex™ Model SR9520 mask is easier to breathe through, as the Protex™ ADC™ System addresses users' concerns that most molded-cup N95s are not comfortable to wear for long periods.

The Protex™ ADC™ System combines a unique soft but strong inner layer, incredibly lightweight but highly efficient and effective inner filtration layer, and high-sealing viscoelastic nose foam for a secure but comfortable seal.

The Protex™
All-Day-Comfort™
System

Get Protex™ ADC™ for Advanced Protection and Comfort.

- A uniquely soft but strong inner layer to reduce abrasiveness on the skin
- An incredibly lightweight but highly efficient and effective inner filtration layer is easier to breathe through
- High sealing, slow-recovery viscoelastic nose foam for a secure but comfortable seal that provides better fit without excessive pressure on the face and skin
- Integrated adjustable aluminum nose clip provides a secure seal and reduced eyeglass fogging
- Expanded force curve elastic head straps are engineered to fit a wider range of sizes

Reorder Number: SR9520 – 12
