

Interprofessional Controlled Substance Risk Mitigation Initiative Symposium: An Interactive Forum Bringing Together Dentists, Physicians, Dental Hygienists, Students, and Specialists in the Field

Saturday, June 8, 2019 • 8:30am – 3:15pm
(Doors open at 7:30am, Reception to follow)

Tufts School of Dental Medicine Continuing Education
14th Floor, One Kneeland St, Boston, MA 02111

5 CE/CME Credits*
(Qualifies for Risk Management credits for Massachusetts)

Jointly provided by:

*Tufts University School of Medicine Office of Continuing Education & Tufts School of Dental Medicine
in conjunction with*

Harvard School of Dental Medicine, Boston Pain Care Center, and Massachusetts Dental Society

TARGET AUDIENCE:

Practicing dentists, oral surgeons, dental educators, dental hygienists, physicians, substance use disorder specialists and other medical subspecialists who closely work with complex patients.

COST:

- \$150 for Doctors
- \$95 for RDH, other Healthcare Providers, Educators, and Staff
- FREE for Students, Fellows, and Residents, but registration is required

TO REGISTER:

- **Phone:** Please call (617) 636-6629
- **Online:** Please visit <https://dental.tufts.edu/ce> or our direct event page at https://reg.abcsignup.com/reg/event_page.aspx?ek=0057-0020-92da2f8b3f8d46a3a230c272277fe60b
- Any content questions, please email Course Co-Director Dr. Kulich at RKULICH@mgh.harvard.edu
- **Cancellation Policy:** *If participants cancel more than two weeks prior to the event they will receive a full refund of the registration fee. Participants who cancel 7-14 days before the event will receive a 50% refund of the registration fee. Participants who cancel less than 7 days before the event will not receive a refund.*

DESCRIPTION:

In the past, dentists have been among the most frequent prescribers of short acting opioids, often with unused pills remaining after dental procedures. In spite of the recent, significant drop in opioid prescribing, at-risk patients are seen at all clinical practices. Practicing dentists and dentists-in-training require evidence-based, cost-effective strategies for assessing and managing their complex patients. Two thirds of practicing dentists still believe that it is not within their professional role to screen patients for substance use disorders, a fact that likely resulted in the slow adoption of prescription monitoring programs (PMPs). National data has shown that less than one third of dentists currently employ PMP data despite many states making its use mandatory. Even fewer dentists employ web-based assessment strategies, such as the NIDA Quick Screen, for assessment. A further factor is that many of the assessment and clinical management tools available to practitioners are irrelevant to dentistry. Due to improving technology and other developments, dentists now have an opportunity to employ effective alternatives to opioid analgesics for acute dental pain, and better technology for assessing and managing the complex pain patient.

The Controlled Substance Risk Mitigation Initiative (CSRMI) Symposium will bring together nationally recognized experts on controlled substance risk mitigation and provide practicing dentists, dental specialists and dentists-in-training with an introduction to the current state of science and best clinical practices. The program will include an interactive forum for participants to review, discuss, and provide input on the development of future evidence-based educational content.

This symposium and interactive forum will not only provide an opportunity to learn about the important work being done on behalf of the Massachusetts Governor's Working Group on Prescription Drug Misuse but will also have an impact on shaping future dental education and will put participants on the forefront of improving standards of dental practice.

Participating experts include specialists in dentistry, oral sergeants, pain medicine, pharmacy, addiction medicine, and the behavioral sciences.

LEARNING OBJECTIVES:

- Distinguish risk factors associated with the initiation or maintenance of controlled substances, including but not limited to short acting opioid analgesics
- Apply evidence-based strategies for managing the complex pain patient, including assessment and management of the patient at-risk for substance misuse or addiction
- Evaluate the limitations of current risk-stratification screening in dentistry and utilize new technology for efficient screening and management of the complex pain patient

PROGRAM:

7:30-8:30am	Registration and Breakfast
8:30-8:45am	Introduction and Commentary Ronald J. Kulich, <i>PhD</i> , & David A. Keith, <i>DMD, BDS</i>
8:45-9:30am	Keynote Address: Assessment and Management of Substance Use Kevin P. Hill, <i>MD</i> , Assistant Professor of Psychiatry, Harvard Medical School, Director of Addiction Psychiatry, Beth Israel Deaconess Medical Center
9:30-10:10am	Clinical Models for Risk Mitigation in Dental Medicine <ul style="list-style-type: none">• Ellen Patterson, <i>MD, MA</i>, Assistant Professor and Director of Interprofessional

Education, Department of Comprehensive Care, Tufts University School of Dental Medicine

- Jeffry R. Shaefer, DDS, MS, MPH, Assistant Professor Harvard School of Dental Medicine Dept of OMFS Director of Pain Management Education HSDM, Director of Orofacial Pain Residency Massachusetts General Hospital

10:10-10:25am Break

10:25-11:10am Pharmacotherapy Management of Acute Pain to Maximize Outcome and Reduce Risk

Paul A. Moore, DMD, PhD, MPH, Professor at University of Pittsburgh School of Dental Medicine

11:10-11:40am Identifying Medical and Psychiatric Conditions with Substance Use Risk

Ronald J. Kulich, PhD, Professor Tufts University School of Dental Medicine, Department of Diagnostic Sciences, Lecturer, Department of Anesthesia, Critical Care and Pain Medicine, Massachusetts General Hospital, Harvard School of Medicine

11:40-12:10pm Improve Care and Minimize Risk: Standardized Strategies, Responses and Legal Issues

David A. Keith, DMD, Professor Harvard School of Dental Medicine, Department of Oral and Maxillofacial Surgery, Massachusetts General Hospital

12:10-1:15pm Lunch & Exhibits

1:15-3:00pm Concurrent Afternoon Sessions (Choose 1):

- **Session 1: New Advances in the Management of Acute Dental Pain: Updated Principles for Rational Prescribing and Alternatives to Opioid Therapy**
 - Steven J. Scrivani, DDS, DMSc, Professor, Department of Diagnostic Sciences Tufts University School of Dental Medicine
 - Discussant: Richard Harold, DMD, B.S. in Pharmacy, JD, Assistant Clinical Professor, Tufts University School of Dental Medicine
- **Session 2: A Model for Persistent Headache and Facial Pain: Screening Approaches for Mitigating and Managing Controlled Substance Risk: Opioids, Benzodiazepines, Sedatives, Cannabis, Alcohol & Tobacco**
 - Michael E. Schatman, PhD, DAAPM, Editor and Chief Journal of Pain Research, Director of Research and Network Development, Boston Pain Care, Tufts Department of Public Health & Community Medicine
 - Discussant: Ronald J. Kulich, PhD
- **Session 3: Identifying and Managing Medical and Psychiatric Conditions Associated with Increased Controlled Substance Risk**
 - Kelly M. Wawrzyniak, PsyD, Head of Department Boston Pain Care; Director of Clinical Research Development, Boston Pain Care, Adjunct Professor at Tufts University School of Dental Medicine
 - Discussant: David J. DiBenedetto, MD, Co-Founder and Medical Director of Boston Pain Care
- **Session 4: Prescription Monitoring Programs for Dental Risk Management Strategies, Responses, and Legal Issues**
 - Richard D'Innocenzo, MD, DMD, Clinical Professor of Oral and Maxillofacial Surgery at Boston University School of Dental Medicine

- Discussant: Alberto Malacarne, *DDS, Assistant Professor, Tufts University School of Dental Medicine, Department of Diagnostic Sciences, Craniofacial Pain Center*

3:00-3:15pm Roundtable Discussion with Experts

3:15-4:30pm Exhibits and Reception

***CE CREDITS:**

- Lecture: Credit Hours – 5 (*this program qualifies for 5 hours of Risk Management credits for Massachusetts, see below*)
- AGD Code: 157, 340
- To receive CME/CE credit, participants must sign-in, attend the entire activity and complete and submit the activity evaluation provided electronically following the event by email. Partial credit will not be awarded. Certificates will be emailed within 4-6 weeks after the activity.
- AMA Designation Statements:
ACCME Accreditation Statement: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Tufts University School of Medicine Office of Continuing Education (TUSM OCE) and Tufts University School of Dental Medicine (TUDSM). TUSM OCE is accredited by the ACCME to provide continuing medical education for physicians.
Credit Designation Statement: TUSM OCE designates this live activity for a maximum of **5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
 The activity has been designed to address the following competencies:
 - ACGME/ABMS: Practice-Based Learning/Improvement, Patient Care and Procedural Skills, Medical/Clinical Knowledge
 - Institute of Medicine (IOM): Provide patient-centered care, apply quality improvement, Employ evidence-based practice
 - Interprofessional Education Collaborative (IEC): Roles/Responsibilities
- ADA CERP Accreditation Statement: Tufts University School of Dental Medicine is an ADA CERP Recognized Provider. Approval Date 1/16/19. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. These continuing education activities have been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through Tufts University School of Dental Medicine. Tufts designates these activities for continuing education credit.
- Risk Management: This activity meets the criteria for 5 hours of Risk Management credits, a total of 5 hours of Pain Management credits and Palliative Care credits. These credits were determined based on criteria outlined by the Massachusetts Board of Registration in Medicine and Dentistry. Please check with your individual state licensing board requirements before claiming risk management, pain management, or palliative care credits.
- Commercial Support and Exhibitors: A list of commercial supporters and exhibitors will be provided to participants prior to the beginning of the educational activity.
- Disclosures for Faculty – Course Directors, Planning Committee, Speakers and Others in Position to Control the Content: Disclosure information will be provided to participants prior to the beginning of the educational activity.
- For Tufts University's ADA/OEO Nondiscrimination Policy and TUSM OCE's Policy on Privacy and Confidentiality, please visit <https://medicine.tufts.edu/education/continuing-education/policies>

- For questions regarding CME/CE:
 - For CME, please contact Tufts University School of Medicine Office of Continuing Education (TUSM OCE) at med-oce@tufts.edu or 617-636-6579.
 - For Dental CE, please contact the School of Dental Medicine Office of Continuing Education at dentalce@tufts.edu or 617-636-6629

A Special Thank You to our Planning Committee:

- Co-Course Director Ronald J. Kulich, PhD, Professor Tufts University School of Dental Medicine, Department of Diagnostic Sciences, Craniofacial Pain Center. Lecturer, Department of Anesthesia, Critical care and Pain Medicine, Massachusetts General Hospital, Harvard School of Medicine
- Co-Course Director David A. Keith, DMD, BDS, Professor Harvard School of Dental Medicine, Department of Oral and Maxillofacial Surgery, Massachusetts General Hospital
- Donovan Khosrow Aroni, DMD, Assistant Professor, Tufts University School of Dental Medicine, Department of Diagnostic Sciences, Craniofacial Pain and Headache and Sleep Center
- Zahid H. Bajwa, MD, Director of Boston Headache Institute at Boston Pain Care Center, and Tufts University School of Medicine
- Julia Hadden, M.A., Doctoral Student at William James College, Intern Tufts School of Dental Medicine.
- Michael E. Schatman, PhD, DAAPM, Editor and Chief Journal of Pain Research, Director of Research and Network Development, Boston Pain Care Center, and Tufts University School of Medicine, Tufts Department of Public Health & Community Medicine
- Steven J. Scrivani, DDS, DMSc, Professor, Department of Diagnostic Sciences, Tufts University School of Dental Medicine

***This program is partially funded through a grant from the
The Coverys Community Healthcare Foundation***
